

November Parks & Rec summary

The Soccer season concluded this week. The season was a success with great numbers of participation, and a very high retention rate. Special thanks to Kelly McCullough who coordinated the program.

The Intramural program at Winslow Elementary School has concluded its first month. This is a program which is sponsored by Parks & Recreation. The program is after school and allows students to participate in a wide array of activities. This program promotes physical fitness, and allows students an activity after school. This program will run through the winter months.

Basketball & Cheering begin this week. To date basketball has 68 players, and cheering has 10. We expect more registrations once we get started. Both groups will practice the whole month of November. Games and competitions will begin in December.

The Rec crew has been raking the Town office park, and Monument Park weekly. This will be the last week that I have a crew. I will attempt to get summer workers to rake during the weekends.

Water has been shut off at KSB Field, and Fort Halifax park.
