

# Town Manager's Report to the Town Council

Submitted by:  
Michael W. Heavener  
August 3, 2016

*Town of Winslow - In the heart of Central Maine representing People, Pride and Progress.*

## **DANGEROUS BUILDING HEARING**

In the Council packet is Resolution No 20-2016 that will require the Council to conduct a public hearing. The purpose of the hearing will be to determine if the garage located at 12 Marcoux Street is a dangerous building. After the hearing the Council will then act on the resolution.

I have spoken to the attorney who represents the mortgage holder of 12 Marcoux Street and was assured that the bank will comply with the resolution if it is approved by the Town Council.

## **Town Jr. High Building Committee**

At the last Town Council meeting I was asked to seek volunteers who would be willing to serve on a committee to help determine what should be done with the Jr. High building. I posted a request for volunteers on the Town's webpage and Facebook page. The following is a list, in alphabetical order, of people who have expressed an interest in serving on the committee:

|                  |                 |
|------------------|-----------------|
| John Cassidy     | John Ferry      |
| Sally Harwood    | Walter McIntire |
| Jack Nivison     | Gary Owen       |
| William Sadulsky |                 |

We can discuss the formation of the committee in more detail at Monday night's Town Council meeting.

## **MSW COMMITTEE UPDATE**

The Town's Municipal Solid Waste Committee continues to explore our solid waste and recycling options when the PERC contract expires in 2018. At the committee's last meeting on June 21st the following was requested of me and Paul Fongemie:

- Contact Agri-Energy and get details for creating a composting pilot project.
- Gather more detailed information on split trash trucks
- Get costs for large recycling containers and transporting them to a facility.
- Talk to the School Department about implementing a recycling program in the schools.

Once the requested information has been collected a committee meeting will be scheduled.

## **SIDEWALK COMMITTEE UPDATE**

The Town's Sidewalk Committee has recently completed its work. I now need to convert their recommendations into a street ordinance amendment. I hope to have the proposed amendment completed for the September Council meeting.
